

# **FPGA Computing Systems : Background Knowledge & Introductory Materials**

## **Quiz Answers**

### **Week 4 : Design Flows**

-----

**Name : Harsh Siddhapura**

**Degree : Bachelor of Technology**

**Dept. : Information & Communication Technology**

-----

1. Which of the following are phases that you can encounter while designing an FPGA-based system

**Place and Route**

**Correct**

**This is the place and route phase**

**Technology mapping**

**Correct**

**This is part of the physical design phases**

Bitstream disassembly phase

**Initial budgeting phase**

**Correct**

**This is a phase in the modular design**

**Active module phase**

**Correct**

**This is a phase in the modular design**

Technology placing
